SUMMARY

Skilled Full Stack Developer with extensive experience in designing, developing, and maintaining web applications using the MERN stack (MongoDB, Express.js, React, Node.js). Proven ability to work collaboratively in team environments and manage cloud hosting services on platforms like DigitalOcean and GoDaddy. Adept at creating and optimizing RESTful APIs, and implementing automated deployment pipelines. Strong problem-solving skills and a commitment to delivering high-quality, scalable software solutions.

SKILLS

React ,Redux & Redux toolkit, Node.js, MVC Architecture, Express.js, EJS & HBS Template Engine, CSS, Bootstrap, Tailwind, HTML, MongoDB, PostgreSQL, Git, GitHub ,Figma, Postman

EXPERIENCE

Full Stack Developer

AF Technologies

March 2024 – Present, Kerala, India

- **Developed and maintained scalable web applications:** Designed and implemented full stack solutions using technologies such as JavaScript, HTML, CSS, Node.js, React, and MongoDB, ensuring optimal performance and user experience.
- **Collaborated with cross-functional teams:** Worked closely with product managers, designers, and backend engineers to gather requirements, define project scope, and deliver high-quality software solutions on time and within budget.
- **Implemented and optimized APIs:** Built and optimized RESTful APIs for seamless integration between frontend and backend systems, improving data retrieval and processing speed by 30%, and enhancing overall application performance and reliability.
- **Managed cloud and hosting services:** Deployed and maintained web applications on DigitalOcean and GoDaddy, ensuring high availability, security, and performance. Configured servers, set up domain names, and implemented automated deployment pipelines to streamline updates and scaling.

PROJECTS

CareerHarbor

For Learning Purpose • career-harbor.vercel.app/ • November 2023 – January 2024

- Developed a dynamic web application utilizing React for the client-side and Express.js with MVC architecture for the server-side.
- Implemented Redux Toolkit for efficient state management, ensuring seamless user interactions and application updates.
- Integrated Firebase, Google Location services, Node Mailer, and Socket.io to enhance functionality and real-time communication capabilities.
- Engineered a robust user profile system enabling job seekers to create comprehensive profiles and submit applications effortlessly.
- Designed and implemented an Application Tracking System (ATS) allowing job seekers to monitor application statuses with ease.
- Empowered employers with efficient tools to review and manage job applications, optimizing the recruitment process.
- Prioritized mobile-responsive design principles to ensure accessibility and convenience across various devices.

EDUCATION

Junior Software Developer(JSD)

JDT ISLAM VSS, Vellimadukunnu • Kozhikode,Kerala, India • 2022

COURSEWORK

Full Stack Developer

Crossroads Privated Limited • 2022 • MongoDB, Express, React, NodeJS

- **Completed intensive Full Stack Developer course at Brocamp:** Mastered the MERN stack (MongoDB, Express.js, React, Node.js), acquiring comprehensive knowledge in building dynamic and responsive web applications.
- **Applied MERN stack skills to real-world projects:** Developed end-to-end web applications during the course, demonstrating proficiency in both frontend and backend development, database management, and RESTful API integration.
